Dear Tracey Atkinson:

Re: Mansfield Ski Club Expansion (NVCA Ref 29757)
Township of Mulmur

NVCA engineering staff, by way of this letter, provides clearance of the proposed design for the purposes of obtaining an Environmental Compliance Approval from the Ministry of the Environment, Conservation and Parks for the stormwater management facility. This approval is based on the following submissions received by the NVCA:

- (SWM Report): Site Servicing & Stormwater Management Report – Mansfield Ski Club”, WMI & Associates Limited, August 2020
- (Drawing Set): Drawing Set (Rev 1 SPA First Submission)”, WMI & Associates Limited, August 17 2020

After reviewing the above submissions we are comfortable that future changes would not require major revisions to the design. **This letter is not a clearance of NVCA’s draft plan conditions.** As previously noted, prior to registration of the final plan NVCA requires fulfilment of all pertinent draft plan conditions.

Please feel free to contact the undersigned should you have any questions regarding the above comments.

Yours Truly,

A handwritten signature in blue ink, appearing to read "Mark Hartley", with a stylized flourish at the end.

Mark Hartley, B.Sc., M.Sc., P.Eng.
Senior Engineer
