

# WELL FLOW TEST REPORT

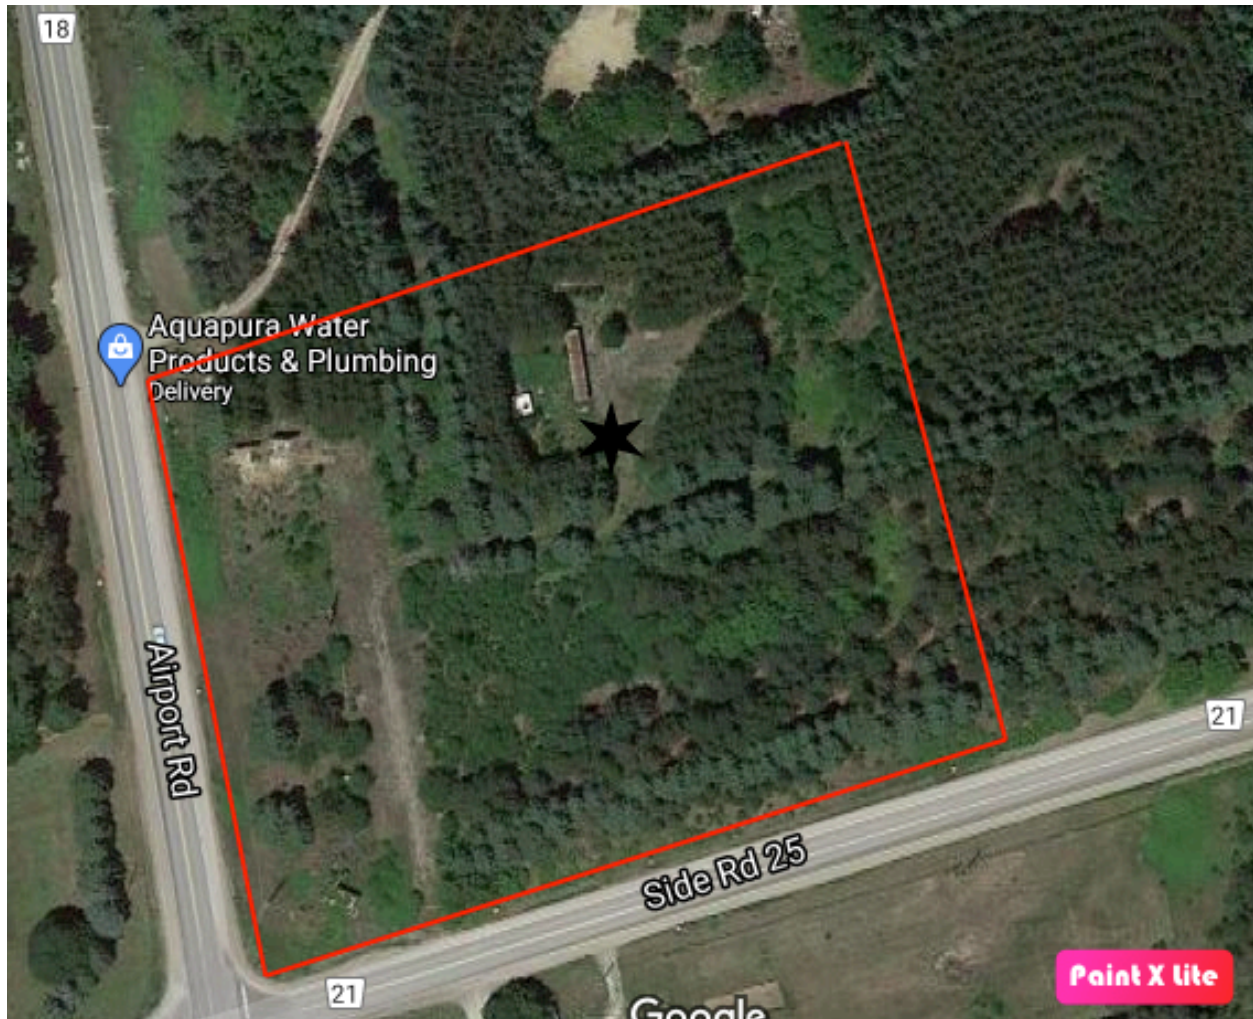

Inglewood Pumps Ent. Inc.

Dan Tosello  
Piaga Investments LTD.  
Property Location:

Concession 7 E, W PT Lot  
26, RP 7R1725, Parts 2 And 3  
Roll Number  
2216000004055060000

The following report will outline if the well on the above mentioned property is functional and in proper working order. In order to determine the result, Inglewood Pumps Inc. will run a series of tests that analyze the water flow and the overall quality of water being produced by the well. The diagnostics will identify any existing issues, if any. The well is located in the northeast quadrant of the property. The well being examined is 6 inches in diameter and 121 feet deep. The original well record audit number is 1705295. Please refer to the image below for an aerial view of the property. The approximate well location is identified by a black asterisk.

## Testing

A calibrated flow meter was used to determine the water flow from the well. The well was pumped for 2 hours and the result was ½ GPM. The hourly water draw rate is 30 gallons. An attempt was made to measure the static water level and pumping water level. No accurate measurements were obtained as there was not enough of a significant water source present. Upon further inspection, it was found that the well is producing an incredible amount of sand. The well is not producing any sediment free water at this time. Based on these results, it has been determined that this well is not a viable water source and should be decommissioned.

## Inglewood Pumps Ent. Inc. Credentials

This is Inglewood Pumps Ent. Inc. professional opinion. Inglewood Pumps is a licensed water well contractor. Steve Ebdon, owner and president is a Class 4 licensed water well technician and pump installer.

Well Technician License number T-2934 as per the Ontario Ministry of the Environment, Conservation and Parks. Reference Audit No. AD1176G2196BC31.
