**Official Plan Policy: 8.7.1 Pre-Application Consultation**

Prior to submitting a planning application, you may be required to consult with the local municipality and the approval authority, in addition to the applicable Conservation Authority and the Niagara Escarpment Commission, prior to submitting a formal application in order to determine the information required to support the application, as set out in this Section and in accordance with Section 22(3.1) and 51(16.1) of the *Planning Act*.

During the pre-application consultation process, the applicant may be requested to submit information and supporting studies at the time of the submission of an application, in accordance with the Official Plan policies and the local municipal official plan and/or accepted professional standards and/or guidelines. The need and timing of such supporting studies, information and materials will be determined by the approval authority on a site-specific basis in consideration of the site’s land use context and regard to the policies.

Supporting studies may vary in scope, depending upon the size, nature and intent of the *development* approval application and the site’s land use planning context.

The Policy Applicability Table provides a list of applicable studies, and where defined, the trigger for which the studies are required. Please note that the completion of the Policy Applicability Table by the approval authority is based on information provided by the Owner/Applicant/Agent. Additional studies may be required.
