INDEPENDENT PRACTITIONER'S REVIEW ENGAGEMENT REPORT

To the Township of Mulmur and the Township of Melancthon

We have reviewed the accompanying financial statements of Mulmur-Melancthon Volunteer Fire Department, which comprise the statement of financial position as at December 31, 2022, the statement of operations, statement of changes in net financial assets and statement of cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements based on our review. We conducted our review in accordance with Canadian generally accepted standards for review engagements, which require us to comply with relevant ethical requirements.

A review of financial statements in accordance with Canadian generally accepted standards for review engagements is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less in extent than, and vary in nature from, those performed in an audit conducted in accordance with Canadian generally accepted auditing standards. Accordingly, we do not express an audit opinion on these financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the financial statements do not present fairly, in all material respects, the financial position of Mulmur-Melancthon Volunteer Fire Department as at December 31, 2022, and its results of operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

MULMUR-MELANCTHON VOLUNTEER FIRE DEPARTMENT

Notes to Financial Statements

Year ended December 31, 2022

The financial statements of the Mulmur-Melancthon Volunteer Fire Department are the representation of management prepared in accordance with accounting principles established by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada. Summarized below are the significant accounting policies:

1. Significant accounting policies:

(a) Acknowledgement of Responsibility:

The management of Mulmur-Melancthon Volunteer Fire Department acknowledges its responsibility for the creation and completion of the financial statements and the following significant accounting policy decisions and related policy notes.

(b) Basis of consolidation:

The operations of this joint board are to be in the financial statements of the participating municipalities on a proportionate consolidation basis.

(c) Basis of accounting:

The accrual basis of accounting recognizes revenues as they become available and measurable; expenditures are recognized as they are incurred and measurable as a result of receipt of goods or services and the creation of a legal obligation to pay.

(d) Credit risk management:

The organization is exposed to credit risk on the accounts receivable from insurance companies. They do not have significant exposure to any individual customer or counterpart.

(e) Non-financial assets:

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations. The change in non-financial assets during the year, together with the excess of revenues over expenses, provides the change in net financial assets for the year.

(i) Tangible capital assets:

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Amortization is provided over the estimated useful life of the assets, using the straight-line method. The useful life of the assets is based on estimates made by Council. The following rates are being used:

Land improvements	20 years
Vehicles	10 to 20 years
Firefighting equipment	5 to 20 years

MULMUR-MELANCTHON VOLUNTEER FIRE DEPARTMENT

Notes to Financial Statements (continued)

Year ended December 31, 2022

1. Significant accounting policies:

(e) Non-financial assets (continued):

(i) Tangible capital assets (continued):

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal. Tangible capital assets received as contributions are recorded at fair value at the date of receipt and also are recorded revenue.

(f) Revenue recognition:

Fire calls and services are recorded as revenue when the emergency services are provided.

Municipal contributions are recognized as the budgeted amounts are approved by the Council of the participating municipalities.

2. Use of estimates:

The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Significant estimates made by management include the useful lives of tangible capital assets. Actual results could differ from those estimates.

3. Reserves:

The balance of the accumulated surplus included in the statement of financial position includes assets that have been specifically restricted (internally) by the Joint Board of Management as outlined in the schedule of accumulated surplus.

4. Operations:

On October 6, 1992, the Townships of Mulmur and Melancthon signed an agreement to officially form a joint firefighting department. This agreement was updated on April 21, 2005. A new agreement was formally reached by the participating municipalities dictating the operations of the joint board on August 11, 2010. Operations of the Mulmur-Melancthon Volunteer Fire Department commenced on January 1, 1993. The department is managed by a four member board known as the Mulmur-Melancthon Volunteer Fire Department Joint Board of Management. Two members have been appointed from each participating municipality to the Fire Department Joint Board of Management.

MULMUR-MELANCTHON VOLUNTEER FIRE DEPARTMENT

Notes to Financial Statements (continued)

Township of Mulmur Resolution: Fire Training Reserves

At the Council meeting held on May 3, 2023, Council of the Township of Mulmur passed the following motion for consideration:

Moved by Hawkins and Seconded by Clark

WHEREAS the Ontario Fire College closed in March 2021 with fire training now being run independently out of 28 Registered Training Centres in Ontario;

AND WHEREAS mandatory minimum certification standards for firefighters came into force on July 1, 2022;

AND WHEREAS all existing and new firefighters (volunteer and fulltime) must reach these new certification standards by July 1, 2026;

AND WHEREAS fire departments will need to invest approximately \$3,500 to certify each new firefighter before they are ready to work as a full service firefighter;

AND WHEREAS each fire department has varying recruitment schedules due to volunteer turn over;

NOW THEREFORE the Council of the Corporation of the Township of Mulmur recommend that the fire boards servicing the Township of Mulmur create a training reserve account, with allocation being budgeted each year to address the additional costs of training and ensure that annual budgets remain more consistent and without undue hardship of the ratepayers;

AND THAT Council recommend any surplus funds left in the 2023 training budgets be transferred to such reserve account;

AND FURTHER THAT this motion be forwarded to all Dufferin County Fire Chiefs, and the Shelburne District Fire Board, Rosemont District Fire Board and Mulmur-Melancthon Fire Board for consideration.

CARRIED.

Sincerely,

Roseann Knechtel

Recommendation #1

The municipal councils of Melancthon, Mulmur and Shelburne must ensure the completion of a risk assessment in their respective municipalities utilizing the OFM Fire Risk Sub-Model to identify extreme and high risk buildings/occupancies and demographic groups. Councils must then resubmit their Annual Compliance Declaration to the OFM.

Response 1: Melancthon Township has completed the Simplified Risk Assessment. The Township and the Mulmur/Melancthon Fire Department will meet in the beginning of every year and review the Annual Compliance Declaration to ensure the information is accurate and current

Recommendation#2

The municipal councils of Melancthon, Mulmur and Shelburne must ensure that the updated risk assessments for each municipality are used to develop one coordinated, comprehensive fire profile which prioritizes all extreme and high risk buildings/occupancies and demographic groups across all municipalities. Councils must ensure that the comprehensive fire profile is used to develop, evaluate and update public education, fire safety inspection and fire investigations programs and services provided across all municipalities. FPPA 9.(1)(a)

Response 2: Melancthon Township and the Mulmur/Melancthon Fire Department have and will continue to review the Annual Compliance Declaration and ensure it prioritizes all extreme and high risk buildings/occupancies and demographic groups across the Township of Melancthon. Melancthon Council, through the Fire Chief will ensure that the comprehensive fire profile is used to develop, evaluate and update public education, fire safety inspection and fire investigations programs and services provided across their municipality. The Fire Chief will submit a comprehensive report to council annually that satisfies this recommendation.

Recommendation #3

The municipal councils of Melancthon, Mulmur and Shelburne must revise their Establishing and Regulating By-laws to clearly define core services and the levels of fire prevention services based on the comprehensive fire profile for all municipalities. FPPA 9.(1)(a)

Response 3: Melancthon Township has revised their Establishing and Regulating By-Law for the Township which is waiting to be passed by council. The core services and fire prevention policy formed part of the E&R bylaw. It is my understanding that this recommendation will be satisfied upon councils passing.

Recommendation #4

The municipal councils of Melancthon, Mulmur and Shelburne must ensure an operating guideline is developed and implemented to provide written delegation of a chief fire official where referenced in the Ontario Fire Code for sections requiring "approved".

FPPA 9.(1)(a)

Response 4: The Fire Chief for the department is the Chief Fire Official by default. Investigations are still under way with respect to Shelburne and how or if they will have a Fire Prevention Officer. Depending on what happens in this regard, the person would only be designated a CFO for the portions they are responsible for. If someone from another municipality was responsible for inspection and enforcement in the agreement area of the municipality then that person could be designated as the CFO for the agreement area as a whole.

Recommendation #5

The municipal councils of Melancthon, Mulmur and Shelburne must develop fire related by-laws and ensure the designation of sufficient staff to ensure the enforcement of municipal fire-related by-laws.

Response 5: The Fire Chiefs will assist in the development of municipal fire related by-laws and recommend the drafting of these bylaws as per our needs and circumstances. The Fire Chief will supply Mulmur/Melancthon Fire Board & Melancthon Township with any request or change of any By Laws that are fire department related.

Recommendation #6

The municipal councils of Melancthon, Mulmur and Shelburne must create an advisory committee with representation from each municipality. Councils must ensure the advisory committee meets annually to develop, coordinate, review and update Establishing and Regulating By-laws, fire board agreements, fire-related bylaws, policies and operating guidelines pertaining to fire prevention services to ensure continuity of service across all municipalities. FPPA 9.(1Xa)

Response 6: Melancthon will not be creating an advisory committee as we feel it will be a duplication of responsibilities of a Fire Board. However, Melancthon will work and develop a policy to be adopted by the Mulmur Melancthon and Shelburne Fire Boards to ensure that there are specific reports generated at least annually to develop, co-ordinate, review and update Establishing and Regulating By-laws, fire board agreements, fire related by-laws, policies and operating guidelines pertaining to fire prevention services to ensure continuity of service across all municipalities, FPPAS-9(1)(a) The CAO's will ensure that this is brought to the attention of the Fire Boards in January of each year to have items completed.

Recommendation #7

The municipal councils of Melancthon, Mulmur and Shelburne must ensure the comprehensive fire profile is utilized to develop a routine fire safety inspection program targeting extreme and high risk occupancies in all municipalities.

Response 7: Mulmur/Melancthon Fire Department will assist the Mulmur/Melancthon Fire Board & Melancthon council in identifying extreme and high risk occupancies and participate in inspections of these buildings as per the Fire Prevention Policy.

Recommendation #8

The municipal councils of Melancthon, Mulmur and Shelburne must ensure the development of an operating guideline for all fire departments that outlines a standard method of conducting complaint, request and routine fire safety inspections across all municipalities. FPPA 9.(1Xa)

Response 8: Fire Prevention & Inspection Policy is currently being presented to Melancthon council for approval. This Policy forms part of the E&R By-law

Recommendation #9

The municipal councils of Melancthon, Mulmur and Shelburne must ensure the development of an operating guideline for all fire departments that outlines a standard method of maintaining and storing fire safety inspections files. FPPA 9.(1Xa)

Response 9: It is recommended that Melancthon Township request past Fire Inspections reports or orders from Fire Officials, a schedule of upcoming inspection dates be delivered and reviewed by a designated township official.

Recommendation #10

The municipal councils of Melancthon, Mulmur and Shelburne must ensure that a fire safety plan is prepared "approved" and implemented in all buildings regulated by Article 2.8.1.1 of the Ontario Fire Code.

Response 10: All buildings in the Township that require Fire Safety Plans will be inspected and the Fire Safety Plans approved by the Chief Fire Official with a copy supplied to the responding fire department and a designated township official.

Recommendation #11

The municipal councils of Melancthon, Mulmur and Shelburne must ensure that personnel in all fire departments who are conducting fire safety inspections be designated as Assistants to the Fire Marshal as outlined in OFM Communique 2009- 1324. FPPA 9.(1)(a)

Response 11: More investigation needs to be conducted in this area to ensure that inspectors have the correct Assistant to the Fire Marshal designation for the parts of the municipality they will be conducting inspections in. The Mulmur/Melancthon Fire Chief will maintain this list and meet with the inspectors periodically to address any comments or concerns they may have.

Recommendation #12

The municipal councils of Melancthon, Mulmur and Shelburne must ensure that personnel in all fire departments who are conducting fire safety inspections attend training sessions on OFM Technical Guideline OFM-TG-01-2012 Fire Safety Inspections and Enforcement learn about enforcement options to gain compliance with the Ontario Fire Code. FPPA 9.(1)(a)

Response 12:

The Fire Chief for Mulmur/Melancthon will ensure all persons conducting inspections have attended the training session on OFM Technical Guideline OFM-TG-0-1-2012 Fire Safety Inspections and Enforcement. In the event the inspector has not had this formal training the Fire Chief will arrange for the individual to attend.

Recommendation #13

The municipal councils of Melancthon, Mulmur and Shelburne must ensure the development of an operating guideline for all fire departments to assist in choosing the most appropriate enforcement options pursuant to the Fire Protection and Prevention Act²⁷ and the Provincial Offences Act.

Any firefighter, volunteer, visitor, or independent contractor must report suspected abuse to either the Fire Chief, Deputy Chief, or a Captain either verbally or in writing.

Organization

It is the responsibility of the Fire Board to:

- Take responsible, preventative measures to protect firefighters and others in the Department's workplaces, from workplace discrimination and harassment.
- Ensure that all firefighters receive a copy of this policy.
- Establish a process for reporting and responding to incidents of workplace discrimination, harassment, and abuse.
- Ensure the process for reporting and responding to incidents of workplace discrimination, harassment, and abuse is communicated, maintained, and followed.
- Ensure that this policy is reviewed at least annually.

Chief, Deputy Chief and Captains

It is the responsibility of Chief, Deputy Chief and Captains to:

- Always comply with this policy to protect themselves and others in the workplace from workplace discrimination, harassment, and abuse.
- Immediately notify their supervisor or other designated person of any incident or workplace discrimination, harassment, or abuse whether the notifying firefighter is the victim or not. In the case of an extreme or imminent threat of physical harm to themselves or any person, the firefighter should contact the police.
- Participate in training regarding this policy and Department procedures directed at workplace harassment and abuse risks in the workplace.
- Fully cooperate in any investigation of complaints of workplace discrimination, harassment, abuse, or breaches of this policy.

7. Resolutions, Reporting and Investigation Procedures

Informal Resolution

If a firefighter is either directly affected by, or has witnessed discrimination, harassment, or abuse in the workplace, they are encouraged to speak to the person directly, and let them know that their behavior is unwelcome, and ask for it to stop.

As an alternative, and informal mediation can be arranged with both firefighters. The Chief, Deputy or Captain or designate will assist the firefighters to discuss the incident and their concerns and come to an agreed upon outcome. Participation in mediation is voluntary and either party can withdraw at any time.

Should the above approaches be ineffective, and/or the behavior continues, it should be reported.

Reporting

Firefighters can at any time report incidents of workplace harassment or reprisal to the Chief, Deputy Chief or Captains.

All complaints and incidents are to be recorded in writing by the reporting person/firefighter, the supervisor or manager receiving the report and the Chief. The date, time, location, potential witnesses, and nature of the incident should be documented.

If the incident involves a person who is not a firefighter of the Department, a member of the Management team will report the incident to that person's employer and /or such other person as the Department determines is appropriate in the circumstances.

Investigation

All complaints or incidents or workplace harassment or reprisal will be promptly investigated. Where the respondent is a department firefighter, the investigation will be conducted as quickly and confidentially as possible in the circumstances. Every effort will be made to protect the privacy of the individuals involved in an investigation and to ensure that Complainants and Respondents are treated fairly and respectfully. Information about the alleged incident or complaint of workplace harassment, including identifying information about any individuals involved, will not be disclosed unless the disclosure is necessary for the purposes of investigating or taking corrective action with respect to the incident or complaint, or is otherwise required by law.

In all cases, firefighters are encouraged to report their concerns internally to their supervisor, provided he/she is not the alleged Respondent, in which case concerns should be reported to the Chief or Secretary/Treasurer of the Board. However, if a complaint is regarding the conduct of senior management, and firefighters are uncomfortable or unable to report it internally, the complaint may be reported to an outside party such as the Ministry of Labour. Nothing in this policy prevents or discourages a firefighter from filing an application with the Human Rights Tribunal of Ontario on a matter related to the Ontario *Human Rights Code*. A firefighter also retains the right to exercise any other legal avenues that may be available.

If the Complainant decides not to lay a formal complaint, the Department has a legal obligation to investigate which is reasonable in the circumstances and will file such documents with the person against whom the complaint is laid (the Respondent).

At the discretion of the Chief and/or Secretary/Treasurer or Board, the Department may obtain outside assistance and/or legal counsel.

The investigation will include:

- A documented interview with the Complainant and/or victim.
- A documented interview with the alleged Respondent(s).
- A documented interview with any witnesses with relevant information.
- Any other step the investigator(s) deems necessary to investigate the complaint or incident fully and fairly.
- At the conclusion of the investigation, the Chief will prepare a written report of the findings.
- Where the Respondent is a department firefighter, their supervisor, in consultation with Chief and/or Secretary/Treasurer or the Board will take any necessary corrective action warranted in the circumstances
- Where the Complainant is a department firefighter and is found to have brought forward a complaint in bad faith, their supervisor, in consultation with Chief and/or Secretary/Treasurer or the Board, will take any necessary disciplinary action. Such discipline is not a reprisal or breach of this policy.
- The severity of any disciplinary action, which may include dismissal from employment, will be consistent with the seriousness of the conduct at issue, such that more significant discipline will follow more serious conduct or repeated violations of this policy.
- Upon completion of the investigation, the Department will advise in writing the Complainant and Respondent, if the Respondent is a firefighter, of the findings of the investigation and any corrective action that has been or will be taken as a result of the investigation

No Reprisal

This policy prohibits reprisals against firefighters who have made complaints in good faith and without malice or provided information regarding a complaint or incident of workplace discrimination or harassment.

Firefighters who engage in reprisals or threats of reprisals may be disciplined up to and including dismissal from employment.

Reprisal includes

- Any act of retaliation that occurs because a person has complained of or provided information about an incident of workplace discrimination, harassment, or abuse.
- Intentionally pressuring a person to ignore or not report an incident or workplace discrimination, harassment, or abuse; and
- Intentionally pressuring a person to lie or provide less than full cooperation with an investigation of a complaint or incident of workplace discrimination, harassment, or abuse.

MULMUR-MELANTHON FIRE BOARD **CAPITAL ASSET POLICY**

PURPOSE

A framework is established for the management and control of the Board's capital assets. Included in this framework is proper recognition, measurement, thresholds, amortization, reporting, safeguarding and disposal. This capital asset policy promotes sound corporate management of capital assets and complies with the PS 3150 which regulates the accounting treatment of capital assets for local governments.

SCOPE

All tangible property owned by the Board, either through donation or purchase and which qualifies as a capital asset is addressed in this policy. In accordance with PS 3150, tangible capital assets (TCA) are non-financial assets having physical substance that:

- a) are held for use in the production or supply of goods and services, for rental to others, for administrative purposes, or for the development, construction, maintenance or repair of other tangible capital assets;
- b) have useful economic lives extending beyond an accounting period;
- c) are to be used on a continuing basis; and
- d) are not for sale in the ordinary course of operations.

Where a tangible capital asset is being held in inventory for use in the construction of a tangible capital asset they will be accounted for as "work in progress" until they form part of the new tangible capital asset is put into service.

PRINCIPLES

Principles in this policy provide guidance for policy development and assist with interpretation of the policy.

1. This policy is for the benefit of the Board as a whole; for the users of the Board's financial statements and managers of the Board's tangible capital assets.

2. The cost associated with data collection and storage must be balanced with the benefits achieved by users of the data and reports.
3. Budgeting follows PS 3150. Only capital items meeting the capital asset criteria in this policy will be recorded as capital.
4. Compliance is with all legislation applicable to municipalities.
5. Financial, operational and information technology system limitations are considered.
6. Materiality is considered.
7. Reporting guidelines are met.

Asset Classification

All TCA's will be classified within one of these major categories:

- 1) Land
- 2) Land Improvements (includes amortizable improvements to land such as parking lots, fences, pathways, etc.)
- 3) Building
- 4) Vehicles
- 5) Equipment
- 6) Furniture and Fixtures

Recording and Valuing Assets:

Capitalization Threshold

The capitalization threshold shall be \$2,500 for every TCA set up in the Asset Register.

Donated/Downloaded Assets

Assets that were acquired by donation or by downloading will be valued using fair market value at the date of contribution, if available. If not, value will be based on discounted replacement cost and set-up at that value.

Shared and Jointly Owned Assets

All assets are shared and jointly owned by Mulmur Township and Melancthon Township in accordance with the agreement establishing the joint Board.

Where an asset is not treated as owned by the Fire Department such as land and building, the Fire Department's share for any major upgrades will be treated as a grant paid by the Fire Department to the party claiming ownership, and the grant will be an operating expense of Mulmur–Melancthon Fire Department.

Betterments vs Maintenance

Betterments occur when physical output or service capacity is increased, when useful life is extended, and when quality of output is improved. Betterments are to be treated as a Capital Asset addition for the TCA to which they relate and shall be recorded as a separate asset with its own useful life. Betterments may in fact be a replacement of an asset (such as a new roof) and so the old asset will be written-off as disposed, and the betterment set up as a new asset.

Pooled Tangible Capital Assets

TCA's will be pooled when they are numerous enough that, when taken collectively, their value exceeds the Pooling Threshold of \$5,000. Exceptions are made, however, in some cases, where it has been decided the value of amortizing is not worth the time to set up those assets, and therefore the Township accepts that these assets will continue to be expensed in full in the year of purchase (as they were pre-PSAB). Examples of pooled assets would be:

- Furniture and fixtures
- Small tools/equipment
- Hoses & couplers
- Breathing equipment
- Bunker gear
- Communication equipment (portable radios & pagers)

When additional items are bought, accounting treatment will be to set up the bulk purchase as a new, single pooled asset (e.g. 5 tables are bought in 2020 to replace some already in use). A disposal will be recorded against the old, pooled asset, in proportion to the number of units replaced versus the number of units in that pooled asset.

Components

The following tangible capital asset will be set up as a multiple component, and not as a single asset:

- Buildings will be set up as 3 components: HVAC systems, roof, and structure.

Constructed Assets

Tangible capital assets, which are newly constructed, will be treated as Work-in-Progress, and reflected in the financial statements as a separate category of TCA, with zero amortization, whenever they remain incomplete as at year end. Whenever the asset begins to be used which is not necessarily when the asset is completed, it will be set up as one or more TCA under the applicable rules and amortization will begin in the year following the start of usage of the asset.

Element of Cost

Any single TCA's cost will, per PSAB, include the purchase price as well as:

- Installation costs
- Design, engineering and architectural fees and staff costs
- Legal fees
- Survey and site preparation costs
- Freight, transportation insurance, and duties
- Carrying charges/interest in the case where borrowing is done to finance a project, but only during the period up to the time that the asset is recorded as a TCA. Interest paid after capitalization will be treated as an operating budget expense.

Valuation

All TCA's will be valued at cost.

Amortization:

All TCA's, excluding land, will be amortized using the *straight-line method*. This method is preferred for its simplicity and ease-of-use. Assets will be amortized for half of the year in the year that the asset is purchased.

Amortization entries shall be posted by the applicable staff to the General Ledger on an annual basis, so that it may be presented to the Board and Councils on the year end statements.

The useful life of each sub-class of a TCA will be set based on consultation with department staff, and review of estimates used in other municipalities. Unless there is a significant difference in the type of sub-class, only one useful life estimate will be used to every TCA in that sub-class. e.g. if one building has a steel roof and another building has a shingle roof, then their useful life estimates may be different.

Residual values will not be estimated or used by the Fire Department. When an asset is sold or traded, the proceeds will be compared to the remaining Net Book Value (NBV), and the disposal will be recorded, the asset's NBV shall be written-off, and a gain or loss on sale recognized.

Write-downs will be done after annual reviews of useful life estimates. The Treasurer or designate will conduct an annual review in conjunction with the Fire Chief or designate to determine if there are any write-downs to be recorded.

When a write-down is required, a journal entry to record the additional amortization required, per the review decision, and before year-end, will be posted immediately following the review, and before year-end, so that the NBV at the year-end matches the decision made jointly at the review by the Treasurer or designate.

A record of all annual reviews, and a written authorization for any write-downs, will be kept in the TCA files within the accounting department, as evidence, for auditing purposes.

Asset Register/Records:

The accounting department is responsible for maintaining the TCA records.

This policy shall come into effect on the date of adoption by the Board. The policy was originally adopted on February 03, 2014.

Date of Approval: April 10, 2017

MULMUR-MELANCTHON FIRE BOARD **PROGRESSIVE DISCIPLINE POLICY**

1.0 POLICY

At the Townships of Mulmur & Melancthon and Mulmur/Melancthon Fire Department (the “Department”), we believe that members will act responsibly and professionally. When required, disciplinary measures are used to correct and prevent unacceptable behaviour and/or work performance. This may involve enforcing published and/or unpublished work rules, work standards and commonly accepted codes of behaviour.

2.0 PROCEDURE

2.1 The Department will adhere to the principles of Progressive Discipline, which is a series of escalating sanctions designed to warn a member that their unacceptable conduct or work performance must change. These principles will apply to all disciplinary situations at the Department, including safety-related infractions.

2.2 The types of escalating sanction that can be applied are:

1. Verbal Warning
2. Written Warning
3. Short Suspension of Service with or Without Pay
4. Long Suspension of Service with or Without Pay
5. Termination of Employment for Cause

2.3 The severity of discipline increases from Verbal and Written Warnings through Suspension and Discharge. When determining the appropriate disciplinary response, there are a number of factors which must be considered including (but not limited to) the nature of the offence, the member’s prior disciplinary record and how similar situations have been dealt with in the past.

2.4 Progression from less severe to more severe discipline does not, however, require a repetition of the previous offence; any previous discipline on the member’s record may be given consideration when assessing the appropriate penalty. It is important to recognize that progression through the various levels of discipline is not mechanical; sanctions may be repeated, steps in the “ladder” bypassed, or more severe discipline (i.e., Suspension and/or Discharge) imposed when appropriate.

2.5 Any member's service may be terminated for just cause after other disciplinary measures have failed or when a first time incident occurs that is very serious. A member may be dismissed for just cause at any time without regard to any progressive steps if he or she commits an offence for which immediate dismissal is specified as a penalty or if the misconduct is sufficiently serious that termination for just cause is warranted.

2.6 When a situation arises which might attract a disciplinary response, it is important for the Fire Chief or Senior Officers to be contacted for advice and assistance. This will ensure that all steps in the disciplinary process meet established policies and procedures.

3.0 **FILING OF RECORDS**

Documentation of discipline is filed in member's personnel file.

This policy shall come into effect on the date of adoption by the Board. The policy was originally adopted September 11, 2012; reviewed/approved April 10, 2017.

Mulmur Melancthon Fire Department 2022 Year End Report

Prepared By: Fire Chief Mathew Waterfield

Members of the Fire Board, I am pleased to present the 2022-year end report for the Mulmur Melancthon Fire Department. 2022 was a year of transition. With the world recovering from a pandemic and most things returning to “normal,” the Fire Department was no different. Our tiered agreements with Dufferin Paramedic services returned to their pre-COVID status, which resulted in an 12% increase in our call volume, which was primarily driven by requests from Ambulance for assistance with medical responses. We had an 100% increase of responses into Melancthon Township with a total of 20 call this year compared to only 10 in 2021. Mulmur Township saw a 9% decrease in calls this past year from 53 in 2021, down to 48 in 2022. The Department also had 12 mutual aid responses to assist our neighbouring departments, which was up 27% from last years 8 responses.

Members of the department spent over 1,200 hours conducting house training to maintain and enhance their skills, which included vehicle extrication, rural water delivery and wildland operations. All members took part in our annual medical recertification which includes AED/CPR and advanced first aid training delivered by Rural Rescue. Rural Rescue is a local Dufferin County company that provides training through out the County and to several other local Fire Departments. Firefighters also completed over 460 hours of training through the Ontario Fire College and other specialized courses, which included Firefighter certifications, Hazardous Materials, Officer Development, advanced vehicle extrication and machinery rescue. Department Members conducted 220 hours of extra duties around the station which included Health and Safety inspections, apparatus preventive maintenance as well as station and grounds maintenance. This amount of training, along with the extra duties and responses attendance only exemplifies the strong dedication our members have towards protecting and helping their community and visitors to Northern Dufferin County.

In August, three members of the Mulmur Melancthon Fire Department took part in the 2022 Oshawa Regional Fire Fit competition. The team began training in 2021 and this was their first competition. All three members finished the course and represented the department fantastically. We are very proud of Michael Mehlhorn, James McLean, and Ryan Quann for all their hard work and training over the past year. We look forward to seeing the 2022 team with several new members join and training hard for this year's competition.

The Honeywood Firefighters Association was able to start back up after the pandemic and get involved in several community events in 2022. They took part in Melancthon Day in June at the Horning's Mills Park. They represented the department well in the First Annual "First Responders Challenge," while also operating the Barbeque at the event, which was so well received, they had to make several runs to local stores to restock their supplies to feed all the attendees of the event. They also held a raffle draw for a smoker that was well received with all the tickets being sold out.

The Association is looking forward to 2023. They currently have plans to host an open house and car wash in June to coincide with the official grand opening on the new playground in Honeywood, along with a return to Melancthon Day to operate another successful Barbeque as well as a strong showing at the "First Responders Challenge." They look forward to seeing the public along with members of the Fire Board at these events.

Moving forward in 2023, the department will continue to strive toward becoming compliant with Ontario Regulation 343/22 for Firefighter Certification. There will be a significant increase in training costs to ensure the department meets the requirements. The department is looking into external resources to assist with this training which is contributing factor to the increase in costs.

The department is also working in conjunction with the Firefighter's association to greatly reduce our members exposure to harmful contaminants. In early June a Firefighter cancer study will be released to all members who wish to take part, which will provide tips and ways to reduce their exposure. We have also purchased a new extractor washing machine to clean our Personal Protective equipment and remove contaminants. We have new on scene decontamination kits that will be placed in all apparatus and used on fire scenes prior to department members returning to the station. This will greatly reduce their exposure to any toxic carcinogens.

In 2023, there will be several energy efficient upgrades made to the Fire Hall including LED lighting upgrades, motion sensing timers to replace light switches in many common areas. These go along with the new furnace and air conditioner that was installed in 2022. There are planned upgrades to the back-up power supply for our communication equipment, this will ensure we have reliable communications during potential long term power outages.
